Contains sugar: Mannitol 362.85 mg/tablet

Contains sweetener: Aspartame 25 mg/tablet and acesulfame potassium 20 mg/tablet

PROFESSIONAL INFORMATION

CATEGORY AND CLASS:

Combination Complementary Medicine

INDICATIONS:

The combination of vitamin B-complex, vitamin C and minerals works in synergy to provide you with the essential micro-nutrients for sustained mental performance and physical well-being.

Background information

Since most of the water-soluble vitamins of the B-complex and vitamin C are not stored by the body to any appreciable extent, their supply might be insufficient for instance in demanding periods such as during extensive physical exercise.

CONTRAINDICATIONS:

- Known hypersensitivity to any ingredient in the product.
- Hypercalcaemia
- Hypermagnesaemia
- Severe hypercalciuria
- Impaired renal function
- Hyperoxaluria

WARNINGS AND SPECIAL PRECAUTIONS:

- The recommended daily dose of one tablet per day must not be exceeded unless under the supervision of a Doctor or Pharmacist.
- Folic acid, vitamin B12 and iron may mask certain forms of anaemia.
- Berocca® Performance Mango effervescent tablets must not be taken by patients with phenylketonuria since the product contains a source of phenylalanine (aspartame).
- Berocca® Performance Mango effervescent tablets contain 341 mg of sodium per tablet. To be taken into consideration by patients on a controlled sodium diet.
- High doses of vitamin C might interfere with diagnostic measures. Inform your physician when taking this product and diagnostic measures are planned on being done.

PROFESSIONAL INFORMATION

INTERACTIONS:

When used as recommended no specific interactions are expected. Potential interactions are reported in the literature for the single ingredients, thus patients receiving any other medication or those under medical care should consult a Doctor or Pharmacist before taking this product.

HUMAN REPRODUCTION:

This product is not intended for use in pregnant or lactating women.

DOSAGE AND DIRECTIONS FOR USE:

Adults and adolescents: 1 effervescent tablet daily dissolved in a glass of water.

The recommended daily dose of one tablet per day must not be exceeded unless under supervision of a Doctor or Pharmacist.

This medicinal product is not recommended for children below 12 years.

SIDE EFFECTS:

In general, this product is well-tolerated. However, in rare cases gastrointestinal symptoms (e.g. abdominal discomfort, stomach discomfort, constipation, vomiting, diarrhoea, and nausea) might occur.

In very rare cases this product may cause allergic reaction. Symptoms may include facial swelling, skin reddening, and rash. If an allergic reaction occurs, treatment must be stopped and a healthcare professional consulted. A slight yellow discolouration of urine may be noticed. This effect is harmless and is due to the vitamin B2 contained in the preparation.

KNOWN SYMPTOMS OF OVERDOSAGE AND PARTICULARS OF ITS TREATMENTS:

There is no evidence that this product can lead to an overdose when used as recommended.

Uncharacteristic initial symptoms, such as confusion, and gastrointestinal disturbances such as constipation, diarrhoea, nausea, and vomiting might be indicative for an acute overdose.

If such symptoms occur, treatment must be stopped and a healthcare professional consulted.

PROFESSIONAL INFORMATION

IDENTIFICATION:

A speckled light orange, cylindrical biplanar, smooth, clean edge tablet.

When dissolved in water it makes a light orange solution.

PRESENTATION:

Berocca® Performance Mango Effervescent Tablets are packed in Polypropylene Tube with MS/SiO₂ desiccant 1.9 LDPE Stopper. The tubes are packed into a carton in pack sizes of 10's, 20's and 30's Tablets.
